Course Objectives and Structure

The primary objective of this seminar is to provide a framework that will lead to the successful completion and defense of your honors thesis. Therefore, the majority of the class time will be spent directly on this objective. You will **pedit** portions of your written thesis withyour classmates. You will also perform practice **pres**tions of portions of your thesis presentation. Because a primary goal of our seminar is to provide a setting in which students give and receive feedback on their research and their written and verbal presentations of that research, attendance is mandatory!

Grades

Your grade will largely be determined by the quality of the final honors thesis document and your oral defense,
