Professor Franciscantman Office: Economics 02 Office Hours: T/Th 11:00AM12:00PMandby appointment Phone: (303) 492872 Email: francisca.antman@colorado.edu (preferred method of contact)

Course Description& Objectives This course offers a Ph.Devel background information you think necessary. ult presentation should also raise questions, critiques, and extensions, and thursvide the basis for a critical discussion of the article in class. While you may consult withother classmates garding the article yowill present, I expect that the presentation slides will be your work alone. If you have presented or are planning to present a similar presentation to another class, you must discuss this with me first to determine whether it will be eligible for credit instalass. Please plan to email the class your slides (as a PDF file) the day before your presentation and bring a hard copy of your slides with you to class.

- 4. You will make one inclass computebased presentation on the research idea you are pursuing for your research proposedee below.) This presentation should emphasize the diminary research question you are pursuing and the methodology ropose to answer. it Your presentationshould last 5 minutes with no interruptions and be followed by a class discussion to provide you with feedback on your proposed reseland halso meet with you individually to discuss your progress. Please bring a hard copy of your slides with you to class on the day of your presentation
- 5. You will write a7-10 page (doublespaced) esearch propose h a topic of your choice, related to the themes explored this class. The proposal sho(10) outline your research question in detail along with any background information needed to understand the contextpl(21) the contribution your work would make to the existing literature on the su(2) cresent the theoretical model/framework (if any) that previews the expected results or motivates the empirical strategy, (4) discuss the price in the analysis, and (6) present preliminary results (if any) or discuss expected resulfsyou are an advanced student that has already begun working on a paper, we can discussed ifying this project to be of greater value to ydfuyou have submitted, or are planning to submit a similar proposal to a different class, you must discuss this with me first to determine whether it will blegeble for credit
- 6. You will make one inclass, computebased, presentation of your research proposal to the class at the end of the course be structure should be similar to that of the research proposal (see above), and should last 15 minutes with no interruptions except for straightforward clarifying questions. If you have presented or are planning to present a similar presentation to another class, you must discuss this with me first to determine whether it will be for credit. Please bring a hard copy of your slides with you as scient the day of your presentation.
- 7. There will be afinal exam based on the articles on the reading list and the material we cover in class. You may consult your notes and signed readings during the exampt you should not consult with other people in or outside the class for formulating your responses. It is important that you demonstrate that you are thinking independently of other solurvites. provide discussion questions to prepare you for the example of questions you will see on the final.
