

Grading for a Class Based on Percentage/Weight

Graded Coursework	Points Earned	Points Possible	Calculations of Grades Earned
-------------------	---------------	-----------------	-------------------------------

Example on how to fill this worksheet out:

Test 1	30	40	$30 \div 40 = .75 \times 100 = 75$	40%	$75 \times .40 = 30$
--------	----	----	------------------------------------	-----	----------------------

See the video on Class Grade Calculation for instructions on how to use this chart to calculate your final grade!
